Empowering innovative minds through active, immersive, and experiential learning

degree programs at the bachelor's, master's, and PhD levels

countries where international students come

faculty with PhD degrees

international faculty from 11 countries

College Of Arts And Sciences

The College of Arts and Sciences cultivates six attributes for success: Character, Competence, Critical Thinking, Leadership, Entrepreneurship, and National Pride-Global Awareness. We aim to offer excellence in undergraduate and graduate education and research, diversity, intellectual curiosity (broad spectrum of human knowledge in natural sciences, social sciences, humanities, or cross disciplines) and personalised and life-long learning.

College of Business & Management

The College of Business & Management is committed to addressing local and global problems by developing future entrepreneurs - organizational and thought leaders who are agents of innovation and progress.

COLLEGE OF ENGINEERING & COMPUTER SCIENCE

The College of Engineering & Computer Science strives to educate and create a generation of young leaders with the qualities of breakthrough thinking and contributing to the development of society based on knowledge, science and technology. We committed to provide the students with a strong basis and many interdisciplinary projects with practical applications. We strongly believe that you will be able to learn and reach your full potential at VinUni.

College Of Health Sciences

The College of Health Sciences is committed to developing world-class research and providing outstanding health care education; to be an agent of change in medical education reform and to attract and develop healthcare leaders to advance health sciences locally and globally.

Our philosophy is built on a foundation of active learning,

experiential learning, team-based learning and interdisciplinary research. We integrate technology-enhanced learning into our curriculum

to enrich the educational experience, develop digital literacies and prepare students for the ever-evolving technological landscape. By embracing this multifaceted approach,

students are equipped with the knowledge, skills, and experiences necessary to thrive in their chosen fields and contribute positively to society.

Innovation in Teaching and Learning

Ignite Week 2024: A Celebration of Active Learning

The second annual IGNITE: Celebration of Active Learning Week took place from May 13-17, 2024. This annual event brings together the vibrant community of educators and learners at VinUniversity to celebrate the diversity of active learning, promote conversations about teaching and learning, and continually improve experiential learning at VinUniversity. This week-long event brings attention to active learning strategies, innovative teaching approaches, and the latest research on learning. Through this event, we aim to inspire new ideas and initiatives that will shape the future of education at VinUniversity and beyond.

Teaching And Learning At VinUniversity

In these stories, VinUniversity faculty share their reflections on how they are creating an impactful, student-centered

learning environment. They will share insights into how they have applied active learning to their courses, their use of feedback, collaboration, and other strategies that make our classrooms dynamic spaces for growth. Through their experiences, you'll see firsthand how our university cultivates a culture of pedagogical excellence. We value teaching as highly as research, putting students at the forefront of all we do.

Lessons Learnt in Teaching Physics using TBL

By Dr. Le Van Quynh (CECS) Last Spring, I implemented the TBL pedagogy in my Introductory Physics class for CECS students. Since it was my first time teaching a course, it is difficult to compare the student learning and engagement from my classes that used the TBL method with the more traditional method of teaching. [...]

IGNITE Week 2025: A Celebration of Active Learning

2025: The third annual Ignite Week: Celebration of Active Learning was held from April 14-18, 2025. This inspiring week-long celebration unites our dedicated community of educators and learners to advance the frontiers of active and experiential learning. Participants immersed themselves in Open Classroom Week, AI posters, Teaching Innovation Grants, and SparkPlug Presentations, exchanging pioneering teaching techniques and countless conversations about reimagining pedagogical practices. The event reinforced VinUniversity's mission to stay at the forefront of educational innovation and continue breaking new ground.
