GRADUATION 2024 - SOARING

As part of a unique university experience in Vietnam, and in line with established practices at some of the world's most esteemed universities, all first-year students are required to reside in VinUni Dormitories. This approach encourages a genuine co-living, co-working, and co-learning environment. We firmly believe that this communal living arrangement enables students to foster social connections, collaborate on their studies, and cultivate enduring relationships that will prove beneficial throughout their lifetimes.

VinUni provides an extensive array of student activities that encompass a wide range of interests and depth. The institution consistently encourages students to conceive and organize their own events, adhering to a "student-led" approach, complementing the annual events it regularly hosts. This approach fosters increased student initiative and cultivates a diverse and dynamic academic environment.
